

SOFT CLOSE

A futuristic addition for any Eclisse Single or Double system. Just slide the door towards it's closed position and at a certain point the door takes over and softly closes itself. It really is as simple as that!

- Useful, easy to use and increased safety from trapped fingers, once you used it there is no substitute.
- Can be installed retrospectively on existing Eclisse systems Single and Double.

Available in three versions:
for doors up to 40 kg.
for doors 40 - 50 kg.
for use with Eclisse self closing mechanism.
